Shop awarded Food Standards Agency's top hygiene rating

Q. When does 0 + 0 + 0 = 5?

A. When a food outlet gets a Very Good score after being inspected under the National Food Hygiene Rating Scheme which is precisely what our shop got when it was inspected in October.

Three hygiene and food standards were inspected where a zero score indicates very good while 25 indicates very bad and three zeros gives an overall rating of 5. This score shows how lucky we are to have a team of staff and volunteers who bring such highly professional standards to the running of the shop. A sticker confirming this splendid score is displayed on the front door to the shop.
